3M

Electroplating/Anodizing Tape

484 • 484L

Technical Data	February, 2010
----------------	----------------

Product Description

3MTM Electroplating/Anodizing Tape 484 is a conformable and abrasion resistant vinyl tape for masking various surfaces during electroplating and anodizing operations. A linered version, 484L, is available for die cutting and large part application.

Product Construction	Backing	Adhesive	Color	Standard Roll Length
	Translucent vinvl	Rubber	Yellow brown	36 vds. (33 m)

Typical Physical Properties

Note: The following technical information and data should be considered representative or typical only and should not be used for specification purposes.

Adhesion to Steel: 22 oz./in. width (24 N/100 mm) D-3:	
====================================	
Tensile Strength at Break: 23 lbs./in. width (402 N/100 mm) D-3	' 59
Elongation at Break: 220% D-3	7 59
Backing Thickness: 5.6 mils (0.14 mm) D-36	352
Total Tape Thickness: 6.7 mils (0.17 mm) D-36	352
Liner Thickness: 6.2 mils (0.16 mm) D-36	352
Temperature Use Range: Up to 170°F (77°C)	

Features

- Excellent resistance to most chemicals used in electroplating/anodizing operations.
- Prolonged exposure of tape to elevated bath temperatures, including hot caustics, above 170°F (77°C) may cause weakening of the adhesive bond.
- Resists most common solvents, care should be taken to avoid ketones, chlorinated hydrocarbons, and esters, found in many lacquer thinners, degreasers, paint strippers, etc. which may cause the tape backing to swell or curl.
- Tape can be used at oven temperatures up to 220°F (104°C) for 30 minutes with clean removal.
- Linered version allows pieces to be custom cut to fit unique shapes. The liner also allows easy handling of 484 tape for large surface applications.

Application Ideas

• Mask various surfaces during electroplating and anodizing.

Product Use Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use

and performance of a 3M product in a particular application. Given the variety of factors that can affect the use and performance of a 3M product, user is solely responsible for evaluating the 3M product and

determining whether it is fit for a particular purpose and suitable for user's method of application.

Warranty, Limited Remedy, and Disclaimer Unless an additional warranty is specifically stated on the applicable 3M product packaging or product literature, 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY

OR CONDITION ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE. If the 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's

option, replacement of the 3M product or refund of the purchase price.

Limitation of Liability

Except where prohibited by law, 3M will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted,

including warranty, contract, negligence or strict liability.

ISO 9001:2000

This Industrial Adhesives and Tapes Division product was manufactured under a 3M quality system registered to ISO 9001: 2000 standards.
