Features

- High transmissivity polycarbonate material
- UL94V-0 compliance
- ESD protection (circuit isolation from front panel)
- Wide viewing angle
- Arrays reduce insertion costs
- Allows quad level SMT indicators
- Secures to PCB by press-fit

Dialight *Optopipe* Light Pipe Description

This Optopipe™ has a relatively low vertical height considering the number of light pipe elements. The element's square emitting surfaces are vertically spaced 0.203" from the PCB to the first element, and then 0.195" between each of the other elements. This Optopipe™ is held in place by 2 press-fit pins on the bottom of the device. The wide base offers added stability to the installed part. The light pipe is not attached to the panel at any point, but protrudes through holes in the panel. This Optopipe™ was specifically designed to accept Dialight's 597 Series Type 1210 LEDs. The light pipe material is water clear transmissive polycarbonate rated UL94-V0, and has a 35% oxygen index.

Dialight can provide custom Optopipe™ solutions for your applications.
