Base Data

Local Order Number DSWS50HSK2

Type DSWS5

Color Black (BK)

Features and Benefits

- "H" profile of the saddles allows for broad surface contact with the bundle, which minimizes pinching and crushing of the bundle.
- Swivels in 360 degree motion to accommodate any area.
- Accommodates T50-T250 ties to handle both light duty and heavy duty applications.

Product Description These saddle spacers are installed between two bundles (such as wires, cables, hoses, tubing, conduit, etc.) to separate and prevent chafing and wear. The mounts can be easily rotated by hand, allowing the bundles to be crossed and rotated at any angle. Cable ties, which secure the bundles, are used with the mounts. The dual swivel saddle spacers accommodate cable ties up to 1/2" wide

Fixation Method (FF) None
