Crimp Tool Kit for 50mm<sup>2</sup> Compression Lugs

<b>Modular Crimp Tooling Kit Compression Lug (Tool code 14)</b>		
	<b>Application Tooling Specification Sheet</b>	
		<b>Order No. 64008-0670</b>

**SCOPE**

**Tooling:** The Square “DIN” style die sets are used with two machines and each machine requires an adapter for the square “DIN” dies. The Molex UP60, order number 63801-8900 will process the square “DIN” style die sets with the 63801-8901 adapter. The Molex 12 ton battery crimp tool, order number 63816-1000 will process the square “DIN” style die sets with the 63816-1100 adapter. Refer to the appropriate crimper instruction manual for installation and operation information.

**Products:** Metric Compression Lug Terminals and Splices 50mm<sup>2</sup> (1 AWG). Refer to the Product part number charts on this sheet for terminals with the barrel and tongue styles listed above.

**TESTING**

The tensile test or pull test is a means of evaluating the mechanical properties of the crimped connections. The following chart shows the UL specifications for the equivalent AWG wire size. The tensile strength is shown in Newtons and (pounds) and indicates the minimum acceptable force to break or separate the terminal from the conductor.

Wire Size (mm <sup>2</sup> )	Wire Size (AWG)	Tensile (UL - 486 A)
50	1	890 (200)

\*UL - 486 A – Lugs (to AWG wire) (Copper Conductors only)

Use gauge pins or soft metal slug (solder) method to measure the “X” dimension. Verify the tooling crimp height calibration by referring to the Go/No Go dimensions shown in the chart below.

Molex does not sell gauge pins. Contact your local industrial supplier.

Tool Code	Wire Range		“X” Dimension Conductor Crimp					
			Mean		Go		No Go	
	mm <sup>2</sup>	AWG	In	mm	In	mm	In	mm
14	50	1	.433	11.00	.429	10.90	.437	11.10

The following is a Partial List of the Product Part Numbers and their specifications that this tooling is designed to crimp. We will be adding to this list and an up to date copy is available on [www.molex.com](http://www.molex.com).
