Inventory Accuracy, Visibility and Loss Prevention

Avery Dennison® AD-451m5
 RFID Label

Elevating Brands and Accelerating Performance
 Throughout the Global Retail Supply Chain

Accelerate Performance – Inventory Accuracy, Visibility and Loss Prevention

Improve Inventory Accuracy, Visibility and Loss Prevention through integrated solutions from manufacturing source to consumer that can help increase speed, accuracy, visibility, productivity and margins.

RFID Labeling for Metallic or Liquid-Filled Items

Retailers are extending the use of RFID for item-level inventory accuracy to non-apparel products containing metal and liquid. At just 1.75" x 0.75" (44.4mm x 19mm), the Avery Dennison AD-451m5 was designed to provide an economical solution that addresses the special needs of these applications while ensuring ease of printing and encoding.

This RFID inlay offers a cost-effective solution for retail item-level tagging of:

- Housewares
- Fragrances
- Cosmetics
- Lotions
- Other items that have metallic or liquid properties

Other Applications

Also perfect for inventory accuracy and IT asset management applications where a small form factor and low profile are required.

Maintain Aesthetic Appearance of Tagged Product

With its low profile design, AD-451m5 increases visual appeal without interfering with product appearance.

Performance

- Avery Dennison SmartFace™- Avery Dennison SmartFace -- provides ANSI/ISO high grade bar code quality when printed with standard RFID thermal printers.
- Read Range- Average read range of 3' (1 meter) on select metallic items. Actual read ranges will vary depending on the unique characteristics of the product, stack density, environment and reader used.

Elevating Brands. Accelerating Performance.
