A diagram of a 2D hexagonal lattice. The lattice is composed of yellow squares with black outlines and black 'X' marks inside, arranged in two vertical columns. The horizontal distance between the two columns is labeled 'F' with a double-headed arrow. The vertical distance between the centers of the squares in the right column is labeled 'G' with a double-headed arrow. On the left, two horizontal lines with arrows pointing towards each other are labeled 'H', indicating the width of the lattice. Vertical dashed lines connect the squares in the two columns, indicating their alignment.
