Thanks to the cantilever type contacts, mating is very smooth.

### • Distortion preventive construction

Box-shaped plug housing has the guide ribs on both ends, which prevents distortion, and offsetting the rib from the center axis provides the mating directionality.

### • Wide range of circuits

No. of circuits available are from 20 to 100, every 10 circuits.

### • Embossed taping for automatic mounting

This connector is supplied in embossed tape packaging, for mounting by automatic placement machines.
