Maxim Integrated DS9098P-TRL+

For any questions, you can email us directly: sales@integrated-circuit.com

19-4875; Rev 2/12

### **FEATURES**

- Compact Receptacle for F5 iButton® Mounting
- Fully Backward-Compatible to DS9098
- Contacts are Stainless Steel with Selective 100% Matte Tin Plating for Optimal Pb-free Solderability to PCB
- Retainer to <u>i</u>Button Connection is Stainless Steel to Stainless Steel
- Withstands Up to +250°C for Surface Mounting
- Double Redundancy of Contacts (2 plus 2)
- Contact Force Exceeds 2N for Reliable Connection
- Prevents Reversed Insertion
- At Insertion, the iButton is Latched for Retention
- The <u>i</u>Button Pops Up for Removal When Latch is Released
- Gentle Deflection of Latches Allows Removal of the iButton
- > 25 Insertion/Withdrawal Cycles with No Performance Degradation
- Compatible with Standard Pick and Place Equipment
- Cleaning Fluids Drain Freely for Quick Cleanup

#### ORDERING INFORMATION

PART	DESCRIPTION
DS9098P-TRL+	Tape and reel, 220 parts per 13in reel

<sup>+</sup>Denotes a lead(Pb)-free/RoHS-compliant package.

## 3-D View 19.30 Top View Latch 7 tabs within Ø16.50 +0.10 / -0.00 of datum -A-Ø19.50 **Bottom View** Side View Recommended Printed Recommended Circuit Board Layout Stencil Aperture **Ground Trace** Data between Pads Trace Ø13.8 Ø13.7 8.5 Ø18.3 Ø18.6 Center - Data Stencil Thickness: 0.15 Outer Ring – Ground

Copper cladding  $\geq 0.3~kg/m^2$  or  $\geq 34~\mu m~(\geq 1oz/sq.ft)$  with soldermask overlay. All dimensions are in millimeters.

iButton is a registered trademark of Maxim Integrated Products, Inc.

#### DESCRIPTION

The DS9098P <u>i</u>Button retainer is a low-cost, surface-mount device to secure an F5 <u>i</u>Button on a PCB. It consists of three metal pieces (two for ground, one for data) molded into a body of black, heat-stabilized, glass fiber reinforced liquid crystal polymer. When inserting an <u>i</u>Button into the DS9098P, closely align axis of the <u>i</u>Button and the retainer. The retainer then latches the flange of the <u>i</u>Button. At removal, limit deflection of retainer latches to just free the <u>i</u>Button edge from retained state. Avoid applying excess force to latches.

The DS9098P is only available on tape and reel. The tape specifications match those of 68-lead PLCC devices except for the deeper pockets and tape-feed sprockets on either side of the 44mm tape. Alignment pedestals keep the part oriented on tape with the latches adjacent to the sprockets.

TRL = Tape and reel.

DS9098P

## **REVISION HISTORY**

REVISION DATE	DESCRIPTION	PAGES CHANGED
	Added coplanarity specification of contact tabs to the data sheet (only affects graphic)	
022008	Minor formatting adjustments (only affects graphic)	1
	Changed "30% glass fiber reinforced Nylon 46" to "glass fiber reinforced liquid crystal polymer"	
8/09	Added lead(Pb)-free status to the <i>Ordering Information</i> PART information	1
2/12	Changed the third bullet in the <i>Features</i> from "tin-lead plating" to "100% matte tin plating" for lead(Pb)-free compliance	1
