# C Series

## TO-126, TO-247, TO-220 and TO-264 Package Heatsinks

Ohmite introduces the C series (Pat. Pending). This series offers high performance, low cost and a compact heat sink with an integrated camming clip system for TO-126, TO-220, TO-247 and TO-264 devices. This powerful heat sink provides tool and fixture free assembly operation, largest surface areas and smallest space occupation. It is the ideal type of heat sink for high power density and small size (1U or 2U) electronic packaging with forced convection cooling.

### SERIES SPECIFICATIONS

| Heatsink Part Number | Surface Area (in <sup>2</sup> /mm <sup>2</sup> ) | Weight (oz/g) | Length "L" (mm) |
|----------------------|--------------------------------------------------|---------------|-----------------|
| C247-025             | 11 / 7,312                                       | 0.5 / 15      | 25              |
| C247-050             | 23 / 14,858                                      | 1.1 / 31      | 50              |
| C247-075             | 34 / 21,655                                      | 1.6 / 45      | 75              |
| C264-030             | 13 / 8,774                                       | 0.7 / 19      | 30              |
| C264-058             | 25 / 16,963                                      | 1.35 / 37     | 58              |
| C264-085             | 37 / 24,861                                      | 1.97 / 54     | 85              |
| C220-025             | 11 / 7,312                                       | 0.5 / 15      | 25              |
| C220-050             | 23 / 14,858                                      | 1.1 / 31      | 50              |
| C220-075             | 34 / 21,655                                      | 1.6 / 45      | 75              |
| C126-025             | 10.2 / 6,559                                     | 0.45 / 12.7   | 25              |
| C126-040             | 16.3 / 10,495                                    | 0.72 / 20.3   | 40              |
| C126-050             | 20.4 / 13,119                                    | 0.90 / 25.4   | 50              |
| C126-075             | 30.6 / 21,655                                    | 1.35 / 38.1   | 75              |

### FEATURES

- Minimum assembly cost and labor Spring Clips make the mounting holes, fasteners, tools and fixtures obsolete in assembly operations & reduce costs.
- Maximum Thermal Transfer Maximum surface area per unit volume, efficient cooling fins & consistent mounting force reduces thermal resistance.
- Maximum Repeatability Constant spring force over repeated assembly/disassembly.
- Maximum Reliability Resilient spring action locks electronic component in place. Fewer parts in assembly and no fasteners and washers required. Prevent short circuit by eliminating metal particles generated from hardware or thread tapping.
- Design Flexibility Maximum flexibility for dynamic device locations and power upgrading. "Configure-to-Fit" gives designers total freedom to configure heat sink needed to fit into a multitude design environments.

### CHARACTERISTICS

|                                     |                                                                                                                                 |
|-------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| <b>Heat Sink</b>                    | Aluminum Alloy 6063-T5 or Equivalent with either degreased or black anodized finish.                                            |
| <b>Spring Clip</b>                  | Music Wire, Per ASTM A228 with bright nickel plating                                                                            |
| <b>Solder Foot</b>                  | Cold-rolled Steel, Per ASTM A-366 with pure tin over copper strike. RoHS compliant.                                             |
| <b>Interface Thermal Resistance</b> | for improvement, use thermal joint compound, 0.005 Grafoil (TGon 800 by Laird), or phase change material (Hi-Flow by Bergquist) |
| <b>Insulator</b>                    | (Optional) Sil-Pad 900-S, K6 800-S and K10 by Bergquist                                                                         |

### HEAT DISSIPATION

Heat dissipation is the total for ALL DEVICES attached to heatsink.

(continued)

# C Series

## TO-126, TO-247, TO-220 and TO-264 Package Heatsinks

### DIMENSIONS

### Land Pattern

X and Y dimensions at user discretion

### HOW TO ORDER

RoHS Compliant  
**C 2 4 7 - 0 2 5 - 1 A E**

Series   Clip size   Length (mm)   No. of clips   Finish  
A = black anodized  
V = degreased

### Standard part numbers

| No Finish (degreased) | Black Anodized | No. of Clips |
|-----------------------|----------------|--------------|
