COOPER BUSSMann°

Fuse Clips with Mounting Holes

For 1/4", 9/32", 13/32", and 9/16" Diameter Fuses

5000 Series

Dimensional Data

Figure 2

- Clips are made of a spring bronze of distinctly superior quality. This metal gives clips great gripping strength and ability to retain fuses under adverse conditions.
- Beryllium copper is by far the most satisfactory metal yet discovered for use in fuse clips. It has the ability to retain spring pressure better than any other metal under high current and high ambient conditions. It also has exceedingly high electrical conductivity.

1/4" Diameter Fuses

				Dimensions (Inches)
