Item # TRAB8213NP, Phantom Antennas[larger image](#)[Stock Locator](#)

- U.S. Patent nos. 45,977,931 and 6,292,156 - do not be fooled by imitators that have no gain or no field diversity
- Phantom true field diversity design ensures uninterrupted video and data transmissions in urban canyons and rural drop off areas
- 3 dB-MEG gain outperforms a 3 dB whip in many applications
- For mobile and fixed applications with NMO or permanent N female mount

Specifications

Model	700 MHz - 5.8 GHz 3 db-MEG Models
Description	Phantom Antenna Permanent Mount/NGP
Frequency Range	821 - 896 MHz
Gain	3 dB-MEG
Color	Black
Radome Height	2.70 inches
Max. Power	100 watts
