Dialight *Optopipe* Light Pipe Description

This Optopipe's™ circular light emitting surfaces appear bright and uniform in intensity. It is reliably held in place by 2 press-fit pins located on the right side of each of the 2 light pipe elements. This Optopipe™ functions as a through-the-case indicator with a textured finish on the 2 light emitting surface that increases its viewing angle. The recommended light sources are Dialight's 597 Series PLCC-2 or PLCC-4 Type SMT LEDs. The LEDs are mounted in a straight line on a 0.250" pitch. The light pipe material is water clear transmissive polycarbonate rated UL94-V0, and has a 35% oxygen index.

Dialight can provide custom Optopipe™ solutions for your applications.
