- Features and Benefits**
- Split wrap design installs quickly, saving assembly time and future accessibility without disassembly.
 - Unique construction retains shape and rigidity throughout unrolling.
 - Easy open design allows quick assembly, future access, and ability to apply protective sleeving post assembly or post installation situations.

Product Description A lateral split, semi-rigid and flame retardant braided sleeving configuration used when ease of installation and repeat access to wire bundle is required. The lateral split allows the sleeving to open and accommodate a variety of bundling requirements. The 25% edge overlap rolls back over connectors and splices without exposing the bundled wires.
